

AutoCAD 2006: One Step at a Time

Review Questions – Lesson 21

21.7

Review Questions

For this exercise, **S1** indicates a question pertaining to the Plotter Setup supplement; **S2** indicates a question pertaining to the Plot Style Setup supplement.

Please write your answers on a separate sheet of paper.

(S1) (1) and (2) are the two commands used to print a drawing.

- 1.
- 2.
3. (S1) Find the shortcut used to access the Add-a-Plotter wizard by typing _____ at the command prompt.
4. (S1) At the Add-a-Plotter Wizard – Begin dialog box, selecting _____ will add a plotter to AutoCAD's system.
5. (S1) To add a local printer at the Add-a-Plotter Wizard – Begin dialog box, select _____.
6. (S1) (T or F) You cannot import plotter information used in an earlier release of AutoCAD into AutoCAD R2004.
7. (S1) Access the Calibrate Plotter Wizard from the _____ wizard.
8. (S2) WYSIWYG means _____.
9. Use the _____ wizard to create plot styles.
10. (S2) Open Window's Plot Style window by typing _____ at the command prompt.
11. (S2) To convert earlier plotter files to R2004 plot styles, use the _____ option on the Add Plot Style Table Wizard – Begin dialog box.

The user can change the global linetype scale factor using the (12) tab of the (13).

- 12.
- 13.
14. (S2) (T or F) Once you've created a new plot style, you can delete the Normal plot style.
15. (S2) To print all drawings in B&W, regardless of color assignments, enable the _____ box of your new plot style.
16. Enter _____ at the command prompt to access the Page Setup Manager.

17. (T or F) It isn't necessary to set up both the printer and a plot style to create B & W prints from a drawing that uses colors. One or the other will suffice.

To reorient the drawing on the sheet, go to the (18) frame of the (19) dialog box.

18.

19.

20. Use the _____ option of the Plot Area frame to plot the limits of the drawing.

21. Use the _____ option of the Plot Area frame to plot all of the objects on the drawing as large as possible.

22. Set the scale of the plotted drawing in the _____ frame of the Plot dialog box.

23. Use the _____ button to help locate the drawing on the page.

(S1, S2) Identify these:

24.

25.

26. (T or F) You cannot access your Internet browser from the AutoCAD command prompt.

27. Insert a _____ to allow a viewer to be able to jump from a selected spot in your DWF file to another website.

28. Most printers come with their own drivers.

29. (S1) To add a printer to AutoCAD, you can begin by typing

- a) Plotterwizard
- b) Plottermanager
- c) add-a-plotter

30. (S2) (T or F) Access the Plot Style Table wizard by typing stylesmanager or selecting Plot Style Manager from the File pull down menu.

31. (S2) (T or F) There are two choices for setting up a Plot Style Table presented in the Begin dialog box of the Plot Style Table wizard.

32. (S2) (T or F) There are two formats – Table View and Form View – for editing the style settings in the Plot Style Table wizard.

33. (T or F) Only the Plot command will activate the Plot dialog box.

34. (T or F) On the Plot dialog box, The Layout name and the Page setup name are the same thing.

35. The Paper size and paper units frame of the Plot dialog box deal with
- a) the print/plot device to be used
 - b) sheet size
 - c) actual area occupied by drawing
 - d) all of the above
36. (T or F) The Page Setup dialog box contains none of the information actually required to plot a drawing.
37. (T or F) The preview reveals the model as it relates to the paper on which it will be plotted.
38. Access AutoCAD's web publishing tool with the _____ command.
- a) publish
 - b) drawingtoweb
 - c) html
 - d) either b or c
39. Edit an existing web page using AutoCAD's _____ command.
- a) publish
 - b) editweb
 - c) webeditor
 - d) htmleditor
40. (T or F) When creating a web page, AutoCAD must use its own DWF format for images.
41. When creating a web page with images that the user can manipulate (freeze layers, etc), you should opt for the (DWF, JPG) format.
42. When creating a web page with images that you wish to load with the best possible speed, you should opt for the (DWF, JPG, GIF) format.
43. (T or F) When posting your web page, you need only copy the HTML file created by AutoCAD to the web site.
44. An eTransmittal may contain
- a) xrefs
 - b) images
 - c) dwg files
 - d) any or all of the above
45. An eTransmittal package will consist of
- a) a self-extracting executable file (.exe)
 - b) a zip file (.zip)
 - c) a self-extracting com file (.com)
 - d) either a or b
46. (T or F) AutoCAD provides some security for eTransmittals that are sent via the internet.

Answers

- | | | |
|------------------------------------|--|-------------|
| 1. Print | 16. Pagesetup | 31. F |
| 2. Plot | 17. T | 32. T |
| 3. Plottermanager | 18. Drawing Orientation | 33. F |
| 4. Next | 19. Page Setup | 34. F |
| 5. System Printer | 20. Limits | 35. a and b |
| 6. F | 21. Extents | 36. F |
| 7. Add a Plotter | 22. Plot scale | 37. T |
| 8. What you see is
what you get | 23. Preview | 38. a |
| 9. Plot Style Table | 24. Add a Plotter
Wizard shortcut | 39. a |
| 10. Stylemanager | 25. Add a Plot Style
Table Wizard
shortcut | 40. F |
| 11. Use a PCP or PC2
file | 26. F | 41. DWF |
| 12. General | 27. hyperlink | 42. JPG |
| 13. Plot Style Table
Editor | 28. T | 43. F |
| 14. F | 29. b | 44. d |
| 15. Convert to Grayscale | 30. T | 45. d |
| | | 46. T |
