

AutoCAD 2009: One Step at a Time

Lesson 6: Object Properties – Color at Last (and More!)

09R6

Exercises

1. Create the remote control drawing at right using the following setup. Save the drawing as *MyRemote* in the C:\Steps\Lesson06 folder.

<u>Object</u>	<u>Color</u>
Button	72
Text	12
Toggle	blue
Up-Down	212

- 1.1. Lower left limits: 0,0
- 1.2. Upper right limits: 6,10
- 1.3. Architectural units
- 1.4. Grid: ¼"
- 1.5. Snap: as needed
- 1.6. Font: Times New Roman
- 1.7. Text Height: 1/8

2. Using the *MyBase3* template created in Lesson 1 (or the *Base3* template in the Lesson01 folder), create the next three drawings. Save the drawings to the C:\Steps\Lesson06 folder using the name indicated in the title block of each. Use the colors shown or select your own. (Hint: Change the snap setting as needed.)

One Step at a Time
Block Guide

[Your Name]	Autocad Level1
[Your Instructor]	[Class Code]
NTS	Shr. 1 of 1

Hex Head Bolt
(Typ-2)

One Step at a Time
Locating Jig

[Your Name]	Autocad Level1
[Your Instructor]	[Class Code]
NTS	Shr. 1 of 1

3. Create this drawing. The grid is 2". Use colors for each type of object being drawn.

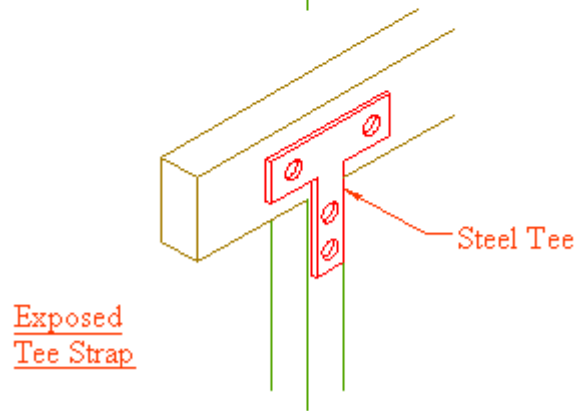

4. Using what you know, create the remaining drawings. The grid on each, when shown, is 1/4".
